

Hoover + Smith,  
=  
Jewellers

[Formerly Simons, Bro. + Co.]

[The rough edge to your diamond ring  
is so very slight... We do not know  
whether we put it there in repairing  
it, or if it was there and caused by  
clamps when first set by our predecessors.  
But we are still willing to stand the  
expense of having the rough edge taken  
off, with no perceptible loss in value.]
